

Tompkins Cortland Community College
Master Course Syllabus

Course Discipline and Number: ANTH201
Course Title: Introduction to Anthropology

Year: 2024-2025

Credit Hours: 3

I. Course Description:

Anthropology is a discipline that studies every phase of human existence, from the genesis of humans and their physical and cultural evolution, to the study of the ways of modern human life and sociocultural orientations across the globe. This course is designed to broaden the student's worldview of people living in both past and present cultures. The student will be introduced to the four basic fields of anthropology: Biological Anthropology (physical, primates, and genetics), Archaeology (Ancient Civilizations), Sociocultural Anthropology (ethnography), and Linguistic Anthropology. A fifth subfield of Applied Anthropology that investigates the effect of globalization on living cultures may also be explored. ANTH201 fulfills the SUNY General Education Social Sciences requirement. Prerequisites: Prior completion of, or concurrent enrollment in, ENGL100. 3 Cr. (3 Lec.) Spring and occasional fall semesters.

II. Additional Course Information:

| 1. This course is an option for the Restricted Social Science Elective in the International Studies A.S. major. |
| 2. This course can fulfill a social science, liberal arts, or unrestricted elective. |

III. Student Learning Outcomes

Upon successful completion of this course, students will be able to:

- | |
|--|
| 1. Describe a focus area of one ancient civilization based on anthropological sources. |
| 2. Apply cultural relativism to examine a current cultural issue. |
| 3. Describe one aspect of primate behavior based on anthropological sources. |
| 4. Orally communicate a clear understanding of a cultural issue. |

IV. Tompkins Cortland Institutional Learning Outcomes; Program Learning Outcomes; SUNY General Education Outcomes

Tompkins Cortland ILOs

Complete this section for "service" courses only (e.g. courses that are required of all students; courses that are not program specific but satisfy liberal arts requirements; or commonly used in multiple academic programs to meet non-program-specific requirements). Check only Institutional Learning Outcomes (ILOs) that are meaningfully developed and assessed in this course. For each ILO chosen, include the SLO to which it aligns.

Students will:

ILO: Communicate effectively, in oral and written forms, taking into consideration audience and purpose.

SLO #4: Orally communicate a clear understanding of a cultural issue.

ILO: Describe the ways in which social, economic, or environmental sustainability depends on their own and the collective contributions of a diversity of ideas and people.

SLO #2: Apply cultural relativism to examine a current cultural issue.

Program Learning Outcomes

Complete this section for program-specific courses (e.g. those that share the same 4 letter designation as the academic program or satisfy requirements in related programs). List the academic program(s) here and note which Student Learning Outcomes align to specific Programmatic Learning Outcomes. Please see the MCS Instructions for more details.

List the PLO or PLOs that are meaningfully developed and assessed in this course. For Each PLO, list the specific SLO through which the development and assessment will occur. Click here to enter text.

Audiovisual: "Films on Demand" (access through library database)

Electronic: Human Relations Area Files (HRAF): Cultural Information for Education and Research. (access through library database)

Other: None specified

Attendance Policy: *To maintain good grades, regular attendance in class is necessary. Absence from class is considered a serious matter and absence never excuses a student from class work. It is the responsibility of all instructors to distribute reasonable attendance policies in writing during the first week of class. Students are required to comply with the attendance policy set by each of their instructors. Students are not penalized if they are unable to attend classes or participate in exams on particular days because of religious beliefs, in accordance with Chapter 161, Section 224-a of the Education Law of the State of New York. Students who plan to be absent from classroom activity for religious reasons should discuss the absence in advance with their instructors. See college catalog for more information.*

Services for Students with Disabilities: *It is the College's policy to provide, on an individual basis, appropriate academic adjustments for students with disabilities, which may affect their ability to fully participate in program or course activities or to meet course requirements. Students with disabilities should contact the Coordinator of Access and Equity Services, to discuss their particular need for academic adjustments. All course materials are available in alternate formats upon request.*

Academic Integrity: *Every student at Tompkins Cortland Community College is expected to act in an academically honest fashion in all aspects of their academic work: in writing papers and reports, in taking examinations, in performing laboratory experiments and reporting the results, in clinical and cooperative learning experiences, and in attending to paperwork such as registration forms.*

Any written work submitted by a student must be their own. If the student uses the words or ideas of someone else, they must cite the source by such means as a footnote. Our guiding principle is that any honest evaluation of a student's performance must be based on that student's work. Any action taken by a student that would result in misrepresentation of someone else's work or actions as the student's own — such as cheating on a test, submitting for credit a paper written by another person, or forging an advisor's signature — is intellectually dishonest and deserving of censure.

Several degree programs offer student learning opportunities (such as internships, field work, and clinical experiences) outside the standard classroom setting. As part of the learning process, students must understand and engage in conduct that adheres to principles guiding employment within the professional workplace. These behaviors include, but are not limited to, academic integrity, accountability, reliability, respect, use of appropriate language and dress, civility, professional ethics, honesty, and trustworthiness. Disciplinary action may be initiated for inappropriate conduct occurring while participating in any course-related project or event.
